

YOUR ONLY COMPETITION

IS THE SUN™

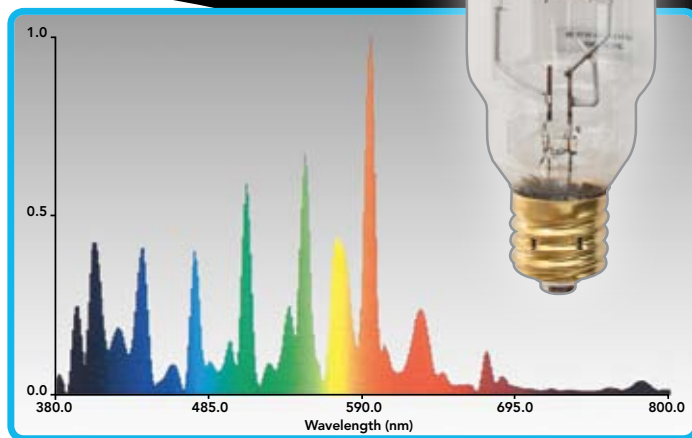

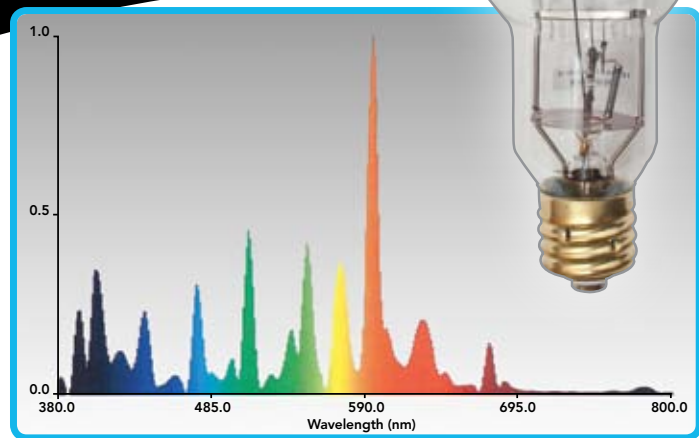

If Your Current Bulbs Don't Measure Up To Your High Standards, Then You Might Be Ready For A Light Source Designed To COMPOUND YOUR YIELDS, PROTECT YOUR PLANTS, AND SAVE YOUR HARD EARNED MONEY...

People who grow high value plants like ours are always looking for ways to increase the quality of our products while also increasing our yields. And the fight to stay on top of everything that can go wrong is a constant one. Now, I don't have to tell you that a large part of that comes from finding high quality equipment.

At Advanced Nutrients, we pride ourselves in our commitment to quality and highly effective and durable products ... **and our BaddAss Bulbs™ are no exception.**

- Each BaddAss Bulb™ you purchase comes protected in an exclusive "cocoon" of packaging that you'll only get with BaddAss Bulbs™. This helps ensure that you save valuable time and money by receiving a perfect bulb each and every time.
- In addition, each BaddAss Bulb™ comes in our Oil Guard™ protective sleeve that prevents your hands from ever coming into contact with the bulb. Skin oils from your fingers can cause hot spots that could severely damage the bulb's surface, or even worse, cause it to explode.
- Your BaddAss Bulb™ is painstakingly built and held to strict AQL standards. If even one slight defect is found on even one bulb, we go all the way back to the beginning of QC to our visual, functional test and burn-in stages and go through the whole testing and qualification/ approval process over again.

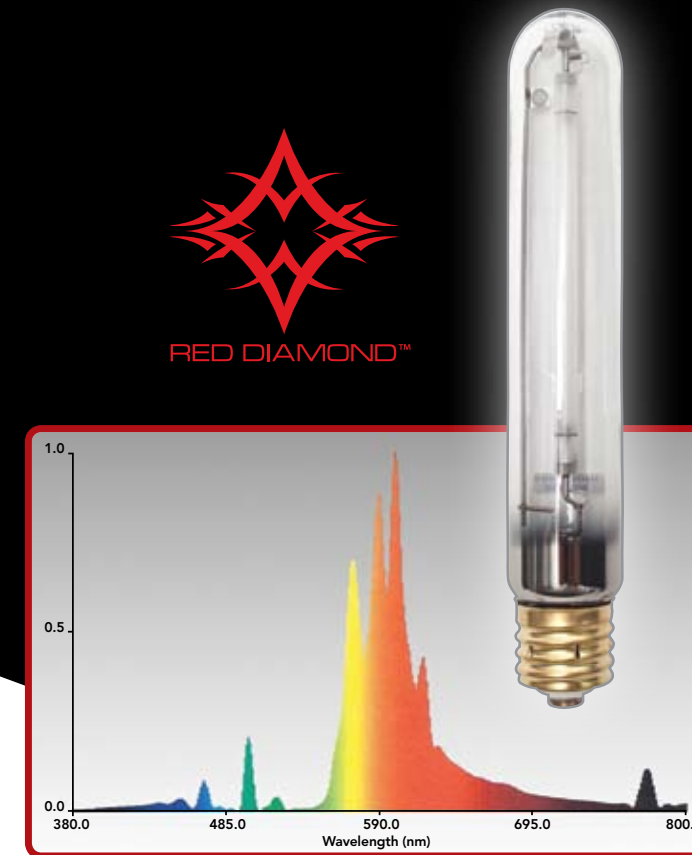

1000 WATT MH ENHANCED SPECTRAL OUTPUT METAL HALIDE VEGETATIVE BULB UNIVERSAL BURNING POSITION

600 WATT MH ENHANCED SPECTRAL OUTPUT METAL HALIDE VEGETATIVE BULB UNIVERSAL BURNING POSITION

- We leave nothing to chance! The BaddAss Bulbs™ manufacturing process is over 75% automated. This has resulted in less than 2% defects overall (that includes manufacturing, testing, packaging, transportation, shipping, handling). Our bulbs arrive in your hands the same way they leave the factory ... **in perfect condition.**
- No expense has been spared to bring you the highest quality bulbs on the planet! Tens of thousands of dollars were spent on developing these unique and state of the art bulbs. We spent our money so you don't have to throw yours away. In addition to money spent there were months of sleepless nights, hours and hours of prep work, weeks of intense auditing, mountains of paperwork, and intense and calculated efforts by our staff and workforce have gone into creating this BaddAss product for you.

600 WATT HPS ENHANCED SPECTRAL OUTPUT HPS FLOWERING BULB UNIVERSAL BURNING POSITION

Trade In Your Tired, Old Bulbs For BaddAss Bulbs™ Today:
