

Here's **3 Big Reasons** Why You Should Consider Trying The New High-Intensity Lighting MelonHead™ Shades.

Save money and get the maximum performance out of your lights with these serious shades for growers...

Big Reason 1: You get maximum output and uniform intensity!

Because the MelonHead™ shades include a tempered glass tube and utilize a highly reflective European aluminum interior — you get more intense, more even lighting for all your plants.

That means less "hot spots" and no more neglected plant leaves because you'll be flooding every part of your plants with growth-potentiating high-intensity lighting!

Big Reason 2: You'll keep your grow room cooler — easier!

Because the MelonHead™ shades allow for maximum air-cooling with built-in 8" fittings, you'll be able to pump in serious amounts of cooling air so your grow room stays just the right temperature.

Plus, the shades are completely sealed with a heavy duty gasket that keeps the MelonHead™ airtight. So you waste less electricity ... save more money on cooling ... and ... maintain a healthier environment for your precious plants more easily than ever.

Big Reason 3: You get the highest quality, most durable, and longest-lasting shades possible!

Because you demand the best out of your crops — you're simultaneously demanding the best out of your grow room equipment. That means you need industrial strength, high-quality equipment and you'll get more than you need with the MelonHead™ shades.

The shades are coated with a tough white powder coat finish, so they'll stand up to bangs and bumps and stay looking newer, longer.

What's more, no expenses were spared when it came to the quality of the airtight structure ... the heavy-duty construction materials ... and ... the craftsmanship that was demanded to put them all together.

Plus, because of the incredibly strong structure of the MelonHead™ shades, they'll last longer than ever — that means more money in your pocket over the long-run!

Company Founders' No-Risk, 100% Money Back Guarantee MelonHead™ Two-Track Guarantee

1. Manufacturing and Workmanship
