HammerHead

PK 4/10

Hammerhead PK4/10 is designed to help plants achieve their maximum development during the flowering phase. The P and K promote flowering and hastens maturity. The potassium Hammerhead provides is essential for translocation of sugars and increasing both size and quality of fruits and vegetables.

HammerHead has been specially designed for use with all hydroponics, sphagnum and soil growing mediums.

HammerHead has been developed for use with any and all hydroponics, aeroponic, drip irrigation, NFT, flood & drain, drip emitters and continuous liquid feed growing systems.
